"The future of Britain's self-esteem is safe in Nigel's Hands. He has an awesome presence which touches and transforms people's lives." —Jack Canfield, Co-author, New York Times #1 bestselling Chicken Soup for the Soul series "I believe that Nigel Risner is the best speaker in the world. He excites, he challenges and most of all, impacts the lives of thousands of people to take action." —David Taylor, Author of The Naked Leader "YOU made the difference Nigel and Wow!" —Kris Akabussi MBE, The Akabussi Company "Not another self-help book?" I hear you cry. Well, for once no, definitely not just another self help book. You've probably tried, and more than likely been disappointed, by self-help books in the past. Why is that and why is this one different? Well here's the truth; the fault doesn't lie in the books you have read before, it lies with you. Only you can make a difference. It wasn't the books that failed to make an impact, it was you. Get over it. The Impact Code is a beautifully simple approach to life. So simple you will wonder why it never occurred to you to do it before. So, it's time to get off your butt and start living for yourself, for your dreams and for your life. Nigel Risner's approach is direct, sincere and devastatingly honest. If you follow the code, you will see and feel a difference in your life and the life of everyone around you. Your life is waiting for you to get started. All you have to do is crack the IMPACT Code and the world will, quite literally, be yours. The choice is yours; it always has been.

Fasten your seat belt, it's all you need to wear. There is a new wave of thinking and action that puts people before process, choice before change, and meaning before money. We are now entering a new business, leadership and global age, with a vision, agenda and spirit born out

of the realisation that there has to be a different way of success, business and leadership. One that sets us free from traditional business thinking, and takes you, your business and your life to new levels of awareness, success and achievement. This next business age is in your hands. The Naked Leader is the antithesis to the process driven mentality that has wasted so many millions, destroyed the trust between company and employee, and enabled so many companies to at best stand completely still. The Naked Leader is a distillation of David Taylor's ideas and inspiration - ideas which have made him Europe's most sought-after speaker on leadership and personal growth. David is known as the "Naked Leader" because of his extraordinary ability to strip away uncertainty and doubt, and conclusively show that everything we need to be successful, we already have. The Naked Leader shares hundreds of life-changing actions, including: * The fastest way to make any change in your life * How to build deep and lasting rapport with anyone * The 7 most powerful questions on earth * How to change how you feel, in a single heartbeat * The structure of guaranteed success * How to be an awesome presenter * Discovering who you really are, and why you are here The Naked Leader strips away the mystery, hype and jargon, to reveal the single formula for assured success that is available to everyone. The book is a journey which can be taken from beginning to end, or joined at any stage - taking you to wherever you want to be, drawing on the very best leadership thinking around the world, finally revealing the answer to the ultimate question, "who are you and why are you here?" Taylor reveals the exact, specific actions to take to predict the future, and then shape it. As a practitioner, not a theorist, Taylor knows what works, and what does not. He shows us what to do, and exactly when to do it. No matter what your vision, challenge or present position, The Naked Leader ensures that you succeed,

making your future no longer a matter of chance, but rather a matter of choice. It is powerful, and the results are amazing.

In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live.
