Everyone knows that books on grammar are among the most boring on the planet, right? Read Understanding Grammar and find out how wrong you can be! Written in an easy-to-understand style and packed with plenty of imaginative and exciting examples, these six books clarify rules, offer practical help to the struggling young wordsmith and generally lead an enjoyable way through the tangled thicket that is - or is that which is? - English grammar.

Looking for an easy-to-use guide to English grammar? This handy introduction covers all the basics of the subject, using a simple and straightforward style. Students will find the book's step-by-step approach easy to follow and be encouraged by its non-technical language. Requiring no prior knowledge of English grammar, the information is presented in small steps, with objective techniques to help readers apply concepts. With clear explanations and well chosen examples, the book gives students the tools to understand the mysteries of English grammar as well as the perfect foundation from which to move on to more advanced topics.

Grammar Troublespots, 3rd edition, provides an excellent aid for ESL writing students at the high intermediate level and above. It helps them identify and correct the typical errors that they are likely to make as they attempt to write, with the emphasis in this new edition on errors made in writing formal academic discourse. The book has 21 units. Each one examines an area of grammar, such as verb tense choice, article usage and modals, and then pinpoints the most troublesome grammar points within that area. Each unit provides a straightforward description of the grammar point, supported by plentiful clear examples, grammar charts and tables. The two-color new edition will be easier to use, with exercises such as error identification, error correction and sentence construction tasks consistently following each grammar point. Each unit ends with a writing assignment and a flowchart to help students diagnose their writing problems and edit their writing.

A Communicative Grammar of English has long been established as a grammar innovative in approach, reliable in coverage, and clear in its explanations. This fully revised and redesigned third edition provides up-to-date and accessible help to teachers, advanced learners and undergraduate students of English. Part One looks at the way English grammar varies in different types of English, such as 'formal' and 'informal', 'spoken' and 'written'; Part Two focuses on the uses of grammar rather than on grammatical structure and Part Three provides a handy alphabetically arranged guide to English grammar. A new workbook, The Communicative Grammar of English Workbook also accompanies this edition.
