Renowned visionary and theorist bell hooks began her exploration of the meaning of love in American culture with the critically acclaimed bestseller All About Love: New Visions. She continued her national dialogue with the bestselling Salvation: Black People and Love. Now hooks culminates her triumphant trilogy of love with Communion: The Female Search for Love. Intimate, revealing, provocative, Communion challenges every woman to courageously claim the search for love as the heroic journey we must all choose to be truly free. In her trademark commanding and lucid language, hooks explores the ways ideas about women and love were changed by the feminist movement, by women's full participation in the workforce, and by the culture of self-help. Communion is the heart-to-heart talk every woman -- mother, daughter, friend, and lover -- needs to have.

Drawing on her experiences as a professor of English and the author of sixteen highly acclaimed books, critic bell hooks presents an insightful collection of essays on the process and politics of writing. Centrally, many of the essays raise provocative questions about the feminist movement and women's writing—the kinds of voices women have established in the wake of the demand for more writing by women, the politics of confession and the type of standards being set for women writers by critics. Several essays explore hook's personal relationship to publishing, explaining the impact success has had on her work as she highlights her movement from writing in relative isolation to writing in New York City amidst the publishing industry, in a world full of writers. Other essays focus on the death of nonfiction writing by Black women, contrasting that with the rise in their published fiction. More general essays focus on writing as healing, raising issues about the function of writing: the extent to which readers inspire writers; and how race, ger, and class can determine one's relationship to words. Remembered Rapture offers a fresh and lively discussion of living with words.

In this provocative and captivating dialogue, bell hooks and Cornel West come together to discuss the dilemmas, contradictions, and joys of Black intellectual life. The two friends and comrades in struggle talk, argue, and disagree about everything from community to capitalism in a series of intimate conversations that range from playful to probing to revelatory. In evoking the act of breaking bread, the book calls upon the various traditions of sharing that take place in domestic, secular, and sacred life where people come together to give themselves, to nurture life, to renew their spirits, sustain their hopes, and to make a lived politics of revolutionary struggle an ongoing practice. This 25th anniversary edition continues the dialogue with "In Solidarity," their 2016 conversation at the bell hooks Institute on racism, politics, popular culture and the contemporary Black experience.

Drawing on both her roots in Kentucky and her adventures with Manhattan Coop boards, Where We Stand is a successful black woman's reflection—personal, straight forward, and rigorously honest—on how our dilemmas of class and race are intertwined, and how we can find ways to think beyond them.

A classic work of feminist scholarship, Ain't I a Woman has become a must-read for all those interested in the nature of black womanhood. Examining the impact of sexism on black women during slavery, the devaluation of black womanhood, black male sexism, racism among feminists, and the black woman's involvement with feminism, hooks attempts to move us beyond racist and sexist assumptions. The result is nothing short of groundbreaking, giving this book a critical place on every feminist scholar's bookshelf.

In the critical essays collected in Black Looks, bell hooks interrogates old narratives and argues for alternative ways to look at blackness, black subjectivity, and whiteness. Her focus is on spectatorship—in particular, the way blackness and black people are experienced in literature, music, television, and especially film—and her aim is to create a radical intervention into the way we talk about race and representation. As she describes: "the essays in Black Looks are meant to challenge and unsettle, to disrupt and subvert." As students, scholars, activists, intellectuals, and any other readers who have engaged with the book since its original release in 1992 can attest, that's exactly what these pieces do.

Discusses what black males fear most, their longing for intimacy, the pitfalls of patriarchy, and the destruction of oppression through redemption and love.
