Baseball On The Brain. 11/21/2016 04:33 pm ET Updated Dec 06, 2017. I stare at the brain every day and it was only during the last game of the World Series that I saw an uncanny resemblance between the construction of the baseball field and a map of visual space present in each of our brains. To illustrate this resemblance, let ' s check out what a map in visual cortex looks like from real brain data.

Baseball on the Brain When they can ' t attend games, how does a busy, middle-class family find time for baseball? If they were living in the 19th century and had a piano, most likely they were singing about it. Long before the advent (and then rapid ubiquity) of recorded sound, musical entertainment was a home-made concern, a familiar element of social gatherings.
