Inside the heart of Jojo's 100-horsepower CR500 engine is a Wiseco forged piston. The piston undergoes a considerable amount of stress, given that Outlaw karting is all about mashing the throttle wide open in top gear (by the way, Owens' transmission only has fourth gear and needs to be bump-started by a truck or ATV).

~~The 100-Horsepower Honda CR500 Powered Outlaw Kart~~

The engine is highlighted by sand-cast Honda racing ignition and clutch covers (which house a Hinson clutch and a programmable Vertex ignition). Dirt Dynamics modified the cylinder and head to work...

'I was never going to sleep in and take it easy, there were worms to catch.' Breaking records on the world's biggest Wall of Death, cycling 2,745 miles across the length of the United States (while sleeping rough), attempting to be the fastest person ever on two wheels and travelling to Latvia to investigate his family's roots, it's been a busy year for Guy Martin. There's been some thrilling racing too, including wild Harley choppers on dirt and turbo-charged Transit vans through the Nevada desert. And don't forget there's the day job to get back to in North Lincolnshire – the truck yard and the butty van. Guy has done more in one year than most people do in a lifetime, and with his gift for story-telling, he takes you with him to the outer limits of human endurance, and on a dizzying adrenalin high, all in a day's work.

'The maddest 12 months of my life. The journey starts with an oddball race up an American mountain and ends with me checking myself out of hospital with a broken back. Again ...' As Guy's Latvian grandfather frequently reminded him, 'When you dead, you dead'. So before it's all over, Guy Martin is making the most of the time he's got. In this past year alone, Guy has raced the Isle of Man TT and finished on the

podium; bike trekked through India; competed in solo 24-hour bicycles races; flown a stunt plane; broken a go-kart speed record down a French mountain and attempted to break the motorcycle land-speed record at Bonneville Salt Flats. And he's done all this around his day job as a truck mechanic. But let Guy tell you about it himself: 'This book starts in a Transit, ends in a Transit, and in between I've raced a few pushbikes, raced a few motorbikes and got a fair few stories to tell you.' Spot on.
