Advance vocabulary for students in grades 5–6 using Vocabulary: Daily Skill Builders. This 96-page book features two short, reproducible activities per page and includes enough lessons for an entire school year. It covers topics such as defining, relating, classifying, writing, expressing opinions, and applying vocabulary words. Frequent reviews provide practice in a standardized test format, the activities align with state standards, and the book includes a matrix for selected states.

Clinical Nursing Calculations is an essential text for teaching dosage calculation to undergraduate nursing students.

Lab Manual for Health Assessment in Nursing, 5e serves as a laboratory manual and a study guide for the student. Each chapter of the lab manual corresponds to a chapter in the main textbook assisting students with comprehending and applying the theoretical content. Students will fully develop their assessment skills using the new interview guides and assessment guides. Students will also develop independence and readiness for test-taking by answering questions designed to hone these skills. Critical thinking skills are further developed when students participate in the Critical Thinking and Case Study activities.

For grades PK-2, our State Standards-based resource meets the data analysis & probability concepts addressed by the NCTM standards and encourages your students to learn and review the concepts in unique ways. Each task sheet is organized around a central problem taken from real-life experiences of the students. The pages of this resource contain a variety of content and levels of difficulty so as to provide students with different learning opportunities. Included in our resource are activities to help students learn how to collect, organize, analyze, interpret, and predict data probabilities. The task sheets offer space for reflection and the opportunity for the appropriate use of technology. Also contained are assessment and standards rubrics, review sheets, test prep, color activity posters and

bonus worksheets. All of our content is aligned to your State Standards and are written to Bloom's Taxonomy, STEM, and NCTM standards.

An easy to use guide for adults.

Explore the world with students in grades 4–5 using *Discovering the World of Geography*. This 128-page book helps students use geographical knowledge and skills to interpret and analyze data. This text covers topics including maps, graphs, hemispheres, seasons, ocean currents, precipitation, and weather maps. The book presents information through activities such as maps, charts, diagrams, and graphs that support National Geography Standards. It also includes assessments and answer keys.

FE and other post-16 tutors are increasingly being asked to embed and develop English and maths skills in their lessons, and the revised common inspection framework from Ofsted places an increased emphasis on this. You may lack confidence or the required background knowledge to do this, or be struggling to find ideas that will engage and motivate your learners. Specifically written for use within vocational contexts, this text provides you with a theoretical understanding of the issues involved, including barriers to learning and how to overcome these. In addition it offers a range of practical strategies and ideas to get you started and build confidence and competence in your students. Each activity is accompanied by detailed notes that highlight key learning points, the development of vocational skills and extension opportunities.
