Deep Time

Deep time is a term introduced and applied by John McPhee to the concept of geologic time in his Basin and Range, parts of which originally appeared in the New Yorker magazine.

File Type PDF Deep Time

The philosophical concept of geological time was developed in the 18th century by Scottish geologist James Hutton; his "system of the habitable Earth" was a deistic mechanism keeping the world eternally suitable for humans. The modern concept shows huge changes over the age of the Earth which has been determined to be, af

Deep time - Wikipedia

Directed by Noah Hutton. Deep Time portrays the landowners, state officials, and oil workers at the center of the most prolific oil boom on the planet for the past six years.

...

Concepts of deep time challenge the belief that the Earth was created in 7 days by a Higher Being. Increasingly, the idea that vast amounts of time are needed for geologic processes are challenged by creationists. Reconciling beliefs with scientific evidence and inquiry can be challenging for these students.
