This best-selling dictionary contains over 1,700 entries on all aspects of politics. Written by a leading team of political scientists, it embraces the whole multi-disciplinary spectrum of political theory including political thinkers, history, institutions, and concepts, as well as notable current affairs that have shaped attitudes to politics. An appendix contains timelines listing the principal office-holders of a range of countries including the UK, Canada, the USA, Australia, New Zealand, Russia, and China. Fully revised and updated for the 3rd edition, the dictionary includes a wealth of new material in areas such as international relations, political science, political economy, and methodologies, as well as a chronology of key political theorists. It also boasts entry-level web links that don't go out of date. These can be accessed via a regularly checked and updated companion website, ensuring that the links remain relevant, and any dead links are replaced or removed. The dictionary has international coverage and will prove invaluable to students and academics studying politics and related disciplines, as well as politicians, journalists, and the general reader seeking clarification of political terms.

When it comes to the vagaries of language in American politics, its uses and abuses, its absurdities and ever-shifting nuances, its power to confound, obscure, and occasionally to inspire, William Safire is the language maven we most readily turn to for clarity, guidance, and penetrating, sometimes lacerating, wit. Safire's Political Dictionary is a stem-to-stern updating and expansion of the Language of Politics, which was first published in 1968 and last revised in 1993, long before such terms as Hanging Chads, 9/11 and the War on Terror became part of our everyday vocabulary. Nearly every entry in that renowned work has been revised and updated and scores of completely new entries have been added to produce an indispensable guide to the political language being used and abused in America today. Safire's definitions—discursive, historically aware, and often anecdotal—bring a savvy perspective to our colorful political lingo. Indeed, a Safire definition often reads like a mini-essay in political history, and readers will come away not only with a fuller understanding of particular words but also a richer knowledge of how politics works, and fails to work, in America. From Axis of Evil, Blame Game, Bridge to Nowhere, Triangulation, and Compassionate Conservatism to Islamofascism, Netroots, Earmark, Wingnuts and Moonbats, Slam Dunk, Doughnut Hole, and many others, this language maven explains the origin of each term, how and by whom and for what purposes it has been used or twisted, as well as its perceived and real significance. For anyone who wants to cut through the verbal haze that surrounds so much of American political discourse, Safire's Political Dictionary offers a work of scholarship, wit, insiderhood and resolute bipartisanship.

A Collection of Authentic Data & Facts. Alphabetical presentation of the book will greatly help readers in quick-search of the desired words and terms. All the meanings and definitions are explained in a lucid and reader-friendly manner.

A comprehensive guide to the complex ideology/terminology which surrounds the world of politics. \* Well over 500 extensive definitions \* Defines political theories, dogmas and phraseologies \* Terms such as Pacifism, Proportional Representation, Jihad, Son of Star Wars, Third Way and Consensual are explained clearly and succinctly \* Invaluable for anyone concerned with politics or current affairs.

Originally compiled by an expert team of contributors, this dictionary covers all the major figures in world politics of the twentieth century. Authoritative and wide-ranging, it describes and assesses the lives of more than 1,100 men and women who have shaped political events across the world. Each entry includes an account of the background, career, and achievements of the individual concerned, balancing fact with critical appraisal. This second edition, commissioned especially for Oxford Reference, contains over 25 new entries, and the whole text has been thoroughly revised and updated.

Containing over 500 definitions of political theories, dogmas and phraseologies, this dictionary includes updated entries on the European Community and federalism alongside new definitions of the European Court of Justice and Central Banks, among others. Frequently-used terms in Middle-Eastern politics are explained, from Ayatollah and the Arab-Israeli wars, to fundamentalism and the Gulf War. It also includes sections on ideas that have become familiar terms over recent years, such as perestroika, glasnost, being politically correct, and Thatcherism, as well as issues that have taken on greater political significance - for example, abortion and environmentalism.
