A rich account of the giant bronze doors created by Florentine sculptor Lorenzo Ghiberti--so exquisite that Michelangelo proclaimed them suitable to serve as the Gates of Paradise.

An anthology of nearly forty essays, representing the author's work over the past ten years, offers an insightful overview of American politics, current affairs, culture, society, and history, written from the perspective of a noted environmentalist, anti-globalization activist, and public intellectual. By the author of A Field Guide to Getting Lost.

This book examines the heretofore unsuspected complexity of Lorenzo Ghiberti's sculpted representations of Old Testament narratives in his Gates of Paradise (1425–52), the second set of doors he made for the Florence Baptistery and a masterpiece of Italian Renaissance sculpture. One of the most intellectually engaged and well-read artists of his age, Ghiberti found inspiration in ancient and medieval texts, many of which he and his contacts in Florence's humanist community shared, read, and discussed. He was fascinated by the science of vision, by the functioning of nature, and, above all, by the origins and history of art. These unusually well-defined intellectual interests, reflected in his famous Commentaries, shaped his approach in the Gates. Through the selection, imaginative interpretation, and arrangement of biblical episodes, Ghiberti fashioned multi-textured narratives that explore the human condition and express his ideas on a range of social, political, artistic, and philosophical issues.

First published in a limited run in 1793 Blake later changed the title to For the Sexes: The Gates of Paradise, and added several more drawings as well as a preface and concluding verse, publishing this version in 1818.The seventeen emblematic drawings and their commentaries depict the life of man from birth to death: passage through the four elements (water, earth, wind and fire), hatching as a child from the "mundane shell," encountering women ("What are these! Alas! the Female Martyr, Is She also the Divine Image?"), reaching for the moon of love ("I want, I want"), falling into Time's Ocean. William Blake (1757 – 1827) was a British poet, painter, visionary mystic, and engraver, who illustrated and printed his own books. Blake proclaimed the supremacy of the imagination over the rationalism and materialism of the 18th-century. Largely unrecognised during his lifetime, Blake is now considered a seminal figure in the history of both the poetry and visual arts of the Romantic Age.

Schuyler Van Alen is running out of time. The Dark Prince of Hell is storming the Gates of Paradise, intent on winning the heavenly throne for good. Will Bliss and the wolves she has recruited to join her win the battle for the vampires? Is Schuyler prepared to make the ultimate sacrifice? Love and vengeance, duty and and loyalty, life and death, are all at odds in the gripping, heartbreaking finale of the Blue Bloods series.

An outstanding collection of the most imaginative and provocative short stories ever written on the power of sexual desire, by such celebrated names as James Baldwin, D.H. Lawrence, Doris Lessing, and others. Compelling from first page to last, the collection explores the intensity and astonishing variety of the erotic experience.

The Casteel family saga continues for Heaven's daughter Annie. When her parents are tragically killed in a car accident Annie is taken to Farthinggale Manor, a place she has always dreamt of visiting. But on her arrival Annie quickly realizes it is a cold and dark place, still hiding many family secrets.

"In the final installment of the Blue Bloods series, the young vampires of Manhattan must make terrible sacrifices in order to triumph over Lucifer and the Silver Bloods"--
