Research

Canute S. Thompson And

examines the nexus
between the place and
scope of the educational
enterprise of a country
and a country's
developmental prospects
and experience. His
central claim is that the
sustainable development

Read Book

Higher

of a country is a function of the quality of its education system and the levels to which its citizens are educated.

He argues that in this calculus, the quality of post-secondary and tertiary education systems is a determinant of a country's prospects for development. In examining the issue of underdevelopment

Read Book

Higher

facing the Caribbean, Thompson explains that institutions of higher learning in the region face the imperative of finding ways of becoming both more accessible and more relevant to the developmental needs of the region. Taking account of the provisions of the General Agreement on

Read Book

Higher

Trades in Services, he points to the disadvantages this trading arrangement poses for higher education institutions in small developing states and suggests ways in which the vulnerabilities these institutions face may be addressed.

While asserting that higher education institutions, including

Read Book

Higher

and especially the

University of the West Indies, must find ways to remain viable in a

highly competitive marketplace, Thompson argues that governments

of the region have a duty to ensure the

survival and success of these institutions. In this vein, he advances

recommendations for the public funding of

Read Book

Education In
access to higher
education. Thompson
also examines
impediments to
development - such as
crime, the decline in
social activism, weak
institutional processes
and leadership, and
public mistrust - and
explores their
connection to education.
He concludes that the
path to sustainable

Read Book

Higher

Education development is dependent on improving the quality of, and access to, education, and that such improvements will in turn help contain crime, inspire social activism, strengthen institutional processes and leadership, and ultimately restore public trust.
