“Nan Ryan knows how to heat up the pages” in this western romance novel about a long-lost woman and the man who could love her—or destroy her (RT Book Reviews). Anna Regent Wright, the heiress to the Regent ranch, has finally come home. With no memory of her life before Apaches abducted her as a child, she has suddenly been given a name and a past, and thrust into a new world that holds a future beyond her wildest dreams. But not everyone is happy for her return. Charming hell-raiser Brit Caruth is positive that Anna is an imposter, and he’s determined to prove it before Anna inherits the fortune that was supposed to be his. But his attraction to the beautiful stranger is undeniable, and as his love blooms, his resentment fades. But when the truth finally does come out, whose future will it put in jeopardy? And will the blooming love between Anna and Brit survive the revelation?

This valuable book provides a concise, yet thorough analysis of a confusing statute and morass of case law. Extremely well organized and indexed, the guide allows you to locate promptly and easily issues pertinent to your case.

A tractor repair manual written for the experienced mechanic by professionals in an easy-to-use format , including numerous photos, illustrations and exploded views.

In a world of stiffening competition, business strategy is more crucial than ever. Yet most organizations struggle in this area--not with formulating strategy but with executing it, or putting their strategy into action. Owing to execution failures, companies realize just a fraction of the financial performance promised in their strategic plans. It doesn't have to be that way, maintain Robert Kaplan and David Norton in The Execution Premium. Building on their breakthrough works on strategy-focused organizations, the authors describe a multistage system that enables you to gain measurable benefits from your carefully formulated business strategy. This book shows you how to: Develop an effective strategy--with tools such as SWOT analysis, vision formulation, and strategic change agendas Plan execution of the strategy--through portfolios of strategic initiatives linked to strategy maps and Balanced Scorecards Put your strategy into action--by integrating operational tools such as process dashboards, rolling forecasts, and activity-based costing Test and update your strategy--using carefully designed management meetings to review operational and strategic data Drawing on extensive research and detailed case studies from a broad array of industries, The Execution Premium presents a systematic and proven framework for achieving the financial results promised by your strategy.

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

This fascinating selection of photographs traces some of the many ways in which Wilmslow has changed and developed over the last century.

Innate and adaptive immunity play important roles in immunosurveillance and tumor destruction. However, increasing evidence suggests that tumor-infiltrating immune cells may have a dual function: inhibiting or promoting tumor growth and progression. Although regulatory T (Treg) cells induce immune tolerance by suppressing host immune responses against self- or non self-antigens, thus playing critical roles in preventing autoimmune diseases, they might inhibit antitumor immunity and promote tumor growth. Recent studies demonstrate that elevated proportions of Treg cells are present in various types of cancers and suppress antitumor immunity. Furthermore, tumor-specific Treg cells can inhibit immune responses only when they are exposed to antigens presented by tumor cells. Therefore, Treg cells at tumor sites have detrimental effects on immunotherapy directed to cancer.

“Goodness, Abdication really is good. I’m in awe of Juliet’s ability” (Jessica Fellowes, New York Times bestselling author of The World of Downton Abbey). England, 1936. A beloved king is dead, and by year’s end, the charismatic new monarch will give up his throne for love. The world is on the brink of war. And in the tumultuous intervening months, three outsiders will find themselves embroiled in the hidden truths, undeclared loves, unspoken sympathies, and covert complexities of a glittering high society in the throes of upheaval. After a long journey from her home in Barbados, May Thomas secures a position as a secretary and driver and opens her heart to a man seemingly beyond her reach. Outwardly affable American spinster Evangeline Nettlefold finds her place in the uppermost social circles, but her growing resentment toward her childhood friend Wallis Simpson predicts disaster. A friendship catapults Julian Richardson from his mother’s middle-class parlor to luxurious dinners with the king, yet he cannot forget those who struggle outside the gilded gates, nor his uneasy affection for May. As addictive as Downton Abbey, as poignant as The Remains of the Day, renowned historian Juliet Nicolson’s debut novel is a breathtaking story inspired by a love affair that shook the world at a time when order and chaos battled for supremacy.
