livestock production. Inappropriate land-use systems and land-tenure policies enhance desertification and loss of agrobiodiversity.

Land degradation: a challenge to Ethiopia

land degradation in Ethiopia causes major causes of land degradation in Ethiopia are rapid population increase, severe soil loss, deforestation, low vegetative cover and unbalanced crop and livestock production (Girma 2001). Topography, soil types and agro-ecological parameters are also additional factors playing significant role in the degradation

Land Degradation In Ethiopia Causes Impacts And | calendar ...

major causes of land degradation in Ethiopia are rapid population increase, severe soil loss, deforestation, low vegetative cover and unbalanced crop and livestock production (Girma 2001). T...

(PDF) Land Degradation in Ethiopia: Causes, Impacts and ...

The major causes of land degradation in Ethiopia are the rapid population increase, severe soil loss, deforestation, low vegetative cover and unbalanced crop and livestock production. Inappropriate land-use systems and land-tenure policies enhance desertification and loss of agrobiodiversity.

Land degradation: A challenge to Ethiopia | International ...

The direct causes of land degradation are apparent and generally agreed : inappropriate forest clearance and soil surface exposure, detrimental crop cultivation practices, the burning of dung, removal of crop residues, and overgrazing are all familiar themes.

LAND DEGRADATION AND REHABILITATION IN ETHIOPIA: A ...

The high soil erosion rates in the Ethiopian highlands find their causes in the combination of erosive rains, steep slopes due to the rapid tectonic uplift during the Pliocene and Pleistocene, and human impact by deforestation, overgrazing, agricultural systems where the open field dominates, impoverishment of the farmers, and stagnation of agricultural techniques.

Land Degradation in the Ethiopian Highlands 21

Drivers of Land Degradation in Ethiopia. Poor land-use practices and population pressure are the major drivers of land degradation in Ethiopia (Genanew and Alemu 2012; Berry 2003). High population pressure, especially in the highland, has led to a decline in arable area, which in turn led to agricultural encroachment onto marginal areas.

Economics of Land Degradation and Improvement in Ethiopia ...

www.ijsrp.org Table 3.1 indicates, the main cause of land degradation are soil erosion by heavy rain (30.8%), clearances of forests for different purpose (27.7%), over population (15.4%), poor tillage (13.8%), over grazing (7.7%) and winds (4.6%) by which leads the people to inability to sustain their life, increase the food crisis and poverty.

Cause of Land Degradation and Its Impacts on Livelihoods ...

It causes land degradation through huge loss of top fertile soil along with plant

nutrients through runoff water.

Land Degradation: 9 Main Causes of Land Degradation

The major causes of land use and cover change (LUCC) and land degradation in the area were population and livestock growth in regions of limited resources, unsustainable farming techniques, the Ethiopian land tenure system and poverty.

Continuing land degradation: Cause-effect in Ethiopia's ...

Land degradation is the common environmental problem in Ethiopia. It is one of the major causes of low and declining agricultural productivity and continuing food insecurity and rural poverty.

Land Degradation in Ethiopia: Causes, Impacts and ...

Soil degradation causes include agricultural, industrial, and commercial pollution; loss of arable land due to urban expansion, overgrazing, and unsustainable agricultural practices; and long-term climatic changes.

Soil Degradation - an overview | ScienceDirect Topics

Soil erosion is a particular physical process that causes land and soil degradation, and refers to the wearing away of the land surface by water and/or wind as well as to the reduction in soil productivity due to physical loss of topsoil, reduction in rooting depth, removal of plant nutrients, and loss of water (Ibid.).

Cost of Land Degradation in Ethiopia: A Critical Review of ...

LAND DEGRADATION IN ETHIOPIA: ITS EXTENT AND IMPACT The Scope And Impact Of Land Degradation In Ethiopia Ethiopia is among the poorest of countries and poverty and land and resource degradation appear to feed off each other.

LAND DEGRADATION IN ETHIOPIA: ITS EXTENT AND IMPACT

The main causes of deforestation in Ethiopia are shifting agriculture, livestock production and fuel in drier areas. Deforestation is the process of removing the forest ecosystem by cutting the trees and changing the shape of the land to suit different uses.

Deforestation in Ethiopia - Wikipedia

Accelerated land degradation is most commonly caused as a result of human intervention in the environment. The effects of this intervention are determined by the natural landscape.
