The Apache OpenOffice Basic programming language has been developed especially for Apache OpenOffice and is firmly integrated in the Office package. As the name suggests, Apache OpenOffice Basic is a programming language from the Basic family.

*Apache OpenOffice BASIC Programming Guide - Apache ...*

The OpenOffice.org Basic programming language has been developed especially for OpenOffice.org and is firmly integrated in the Office package. As the name suggests, OpenOffice.org Basic is a programming language from the Basic family.

*OpenOffice.org BASIC Guide*

Apache OpenOffice Basic is an interpreter language. Unlike C++ or Delphi, the Apache OpenOffice Basic compiler does not create executable or self-extracting files that are capable of running automatically. Instead, you execute an Apache OpenOffice Basic program inside Apache OpenOffice. The code is first checked for obvious errors and then executed line by line.
