Results Of The Archbold Expeditions. No. 65. The Rodents ...

Many specimens of the hitherto little-known genus of tree frogs Nyctimystes are included in the extensive herpetological material obtained by the five Archbold Expeditions to New Guinea. The study of this material and other important specimens obtained in central New Guinea by E. Thomas Gilliard makes it possible to redefine the genus Nyctimystes and to add several new species to the known ...
