noting the complexities that perception and misperception introduce to deterrence and foreign relations as a whole.

Perception in Politics - BPR Interviews:
Robert Jervis ...

In Perception and Misperception in International Politics, UCLA political scientists Robert Jervis seeks to demonstrate that decision-makers' perceptions of the world and of other actors diverge from reality in detectable patterns that may be understood. Jervis analyzes the methods by which decision-makers process information and form, maintain, and change their beliefs about international relations and other actors.

Jervis applies his theory to predict whether

Access Free Robert Jervis Perception And

the US and USSR are likely to engage in a nuclear war. Misperceptions could increase the probability of conflict (US vs. USSR), but it is a game of chicken: nuclear war will not happen if both sides are minimally rational and control their behavior, but will be more likely if both sides conclude war is inevitable
