Rev. ed. of: Teaching science as inquiry / Arthur A. Carin. 11th ed. 2009.

Strategies for Successful Science Teaching is an exciting new text for science education classes, and a supplement for teachers of science (especially new teachers). It is aimed at K-8 teachers, but can also help 9-12 teachers. For administrators and others, the book will quickly become a standard reference on current science education strategies. Easy to navigate and presented in a discussion-style format, the book addresses: -the inquiry approach, -process skills, -lesson planning, -adapting science for special needs students, -integrating science with other subjects, -assessment of science activities, -technology and other creative teaching strategies, and -research and resources. Most chapters include a sample lesson plan with hands-on activities that illustrate the concepts discussed. In some instances, several examples are included. Appropriate websites are also provided. The chapters are short and readable. Appendices include lists of curriculum kits, activity books, organizations, periodicals, suppliers, and technology resources, in addition to the typical bibliography. These extensive appendices provide abundant resources for science education. Strategies for Successful Science Teaching is a must-have for science educators. A comprehensive resource, it never loses sight of the wonder of science and the pleasure of teaching it.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- This title is only available as a loose-leaf version with Pearson eText, or an electronic book. For an undergraduate level course in science education, Teaching Science Through Inquiry and Investigation provides theory and practical advice for elementary and middle school teachers to help their students learn science. Written at a time of substantive change in science education, this book deals both with what's currently happening and what's expected in science classes in elementary and middle schools. Readers explore the nature of science, its importance in today's world, trends in science education, and national science standards. They consider "What science is" and "What it means to do science." The book references both the National Science Education Standards (NRC, 1996) that provide the basis for most current state science standards and A Framework for K-12 Education: Practices, Crosscutting Concepts, and Disciplinary Core Ideas (NRC, 2011) that builds on previous science education reform documents including the NSES and contemporary learning theory to present the framework for the Next Generation Science Standards, expected to be released in the spring of 2013. Enhanced Pearson eText. Included in this package is access to the new Enhanced eText exclusively from Pearson. The Enhanced Pearson eText is: Engaging. Full-color online chapters include dynamic videos that show what course concepts look like in real classrooms, model good teaching practice, and expand upon chapter concepts. Video links, chosen by our authors and other subject-matter experts, are embedded right in context of the content you are reading. Convenient. Enjoy instant online access from your computer or download the Pearson eText App to read on or offline on your iPad and Android tablets.\* Interactive. Features include embedded video, note taking and sharing, highlighting and search. Affordable. Experience all these advantages of the Enhanced eText along with all the benefits of print for 40% to 50% less than a print bound book. \*The Pearson eText App is available for free on Google Play and in the App Store.\* Requires Android OS 3.1 - 4, a 7" or 10" tablet or iPad iOS 5.0 or newer 0133400794 / 9780133400793 Teaching Science Through Inquiry and Investigation, Loose-Leaf Version with Enhanced Pearson eText -- Access Card Package consists of 0132612240 / 9780132612241 Teaching Science Through Inquiry and Investigation Loose Leaf Version 0133397084 / 9780133397086 Teaching Science Through Inquiry and Investigation, Enhanced Pearson eText -- Access Card

Intended for both pre-service and practicing teachers,Teaching Children Science: Discovery Methods for the Elementary and Middle Grades, 2,epresents contemporary ideas in a motivating, engaging writing style that captivates future classroom teachers and enhances instruction in the science classroom. This text offers the first nine basic science teaching methods chapters highlighting strategies and techniques teachers need in order to incorporate cooperative learning, questioning and active listening in their classrooms. This truncated paperback volume is composed of strategies and techniques for teaching science derived from the Sixth Edition of Joseph Abruscato's successful comprehensive text,Teaching Children Science: A Discovery Approach. Allow your students to "discover" science through this practical text. New to This Edition: With a renewed focus on the NSE content standards, this text provides clear direction of what teachers need to know to be prepared for the classroom. Discusses implementation of the NSE K-8 Content Standards and provides curriculum responsive to those standards. Covers elementary science topics including earth and space science, life science, physical sciences, and technology in a lively and engaging style that students find accessible. Satisfies the NSE standards of "the human side of science" (all chapters). Continuing its strength in supportive pedagogy, this text guides students into discovery. Features such as "A Look Ahead," "Go Further," "Quick Checks," and "Demonstrations" provide students with tangible suggestions to bring into the classroom. \*This is an excellent resource for future teachers to have during their actual teaching.\* Professor Russell Agne,The University of Vermont "Dr. Abruscato's writing style appeals to those who aspire to teach science as well as to those who have a desire to teach but are among the many who tend to be science shy." Professor Jim Dawson,Rochester College Author bio: Dr. Joseph Abruscatoreceived his Bachelors and Masters Degrees from Trenton State College and his Ph.D. from The Ohio State University. He presently teaches science curriculum and methods courses at the University of Vermont, Burlington. He was inspired by his own teachers to enter the teaching profession and his personal experience as a teacher has enhanced his professional work as a teacher educator. Dr. Abruscato has presented hundreds of speeches and workshops across the United States and Canada and has published a variety of science books for children and teachers includingTeaching Children ScienceandWhizbangers and Wonderments.
