Do you want to be a more relaxed author? There are plenty of books and tips on writing faster, learning more marketing tactics and strategies, trying to maximize your ranking, hitting the top of the charts, juicing the algorithms, and hacking different ad platforms. While these are all important things – which the authors themselves regularly write and talk about – it's also important to recognize that your author journey is a marathon, and not a sprint. Joanna Penn and Mark Leslie Lefebvre have been in the business long enough to see authors burning out and leaving the writing life because they turned what they love into a hamster wheel of ever more production and marketing tasks they hate. It doesn't have to be this way. This book is a collection of tips on how to be a more relaxed author – and return to the love that brought you to writing in the first place. You will discover: - Why the 'relaxed' author? - You are not alone. Why authors are not relaxed. Part 1: Relaxed Writing - Write what you love - Write at your own pace - Write in a series (if you want to) - Schedule time to fill the creative well and for rest and relaxation - Improve your writing process - but only if it fits with your lifestyle Part 2: Relaxed Publishing - Make empowered publishing choices - Understand persistence, patience, and partnership - Value your work. You create intellectual property assets. - Publish at your own pace - Publish wide (or don't) - Sell direct to your audience - Don't let piracy and plagiarism derail you - Deal with cancel culture, bad reviews, and haters - Find a community who support your publishing choices Part 3: Relaxed Marketing - Focus on the basics first - Simplify your author brand and website - Simplify and automate your email - Find one form of marketing you enjoy and can sustain for the long term - Put book 1 in a series free or permfree - Choose social media that suits you - or don't use it at all - Advertise in campaigns - Outsource when you can - Embrace who you are. Double down on being human. - Think global, digital, long-term marketing Part 4: Relaxed Business - Do you really want to run an author business? - Create multiple streams of income - Eliminate tasks. Say 'no' more. - Organize and improve your processes - Use tools - Find voices you trust and tune out the rest - Learn about money - Look after your physical and mental health - Keep a long-term mindset If you want to be a more relaxed author, sample or buy today.

Here you are! You've done it, you've finished your book. Maybe you have some final-touchees left, but the hard part is over and you've completed your masterpiece! All those days spent researching and writing and fitting everything together perfectly are behind you. But your book isn't really selling like you hoped it would. Why? Why aren't people rushing to read your carefully crafted world or your precise report on that important matter? Well, my fellow writer... It once struck me just as it will inevitably, at some point, strike you. So we might as well just get it out of the way! I hate to be the one to tell you, but nobody really gives a damn about you! You're a new author nobody's ever heard of. They skim past your great book cover in a mere instant simply because they don't know your name. They ignore your catchy book title simply because they don't trust their money with you. You're an unknown, therefore you're a risky choice. Yes, even for the price of a damn cup of coffee, they'll cruise past your long hours of work without any kind of afterthought. I know... it's the brutal reality of indie authors, but it's the reality nonetheless: big authors sell their books using their names, signed authors sell their books using their publisher's name. But the rest of us, self-publishing authors, are left to fend for ourselves. I too once thought that writing a good book is the hard part. Now I know better, now I know that selling my work is actually the hardest part (by far). But don't give up! Not yet! Not when you can learn from my mistakes (and occasional successes)! Not when you're so close... So here goes... Everything I've tried, everything I've done and everything I've learned over the years about marketing your book.

The easy way to get started in crowdfund investing Crowdfund investing (CFI) is going to be the next big thing on Wall Street. U.S. investment banks, brokerage houses, and law firms are gearing up for the creation and regulation of new financial products that will be available to the general public starting in early 2013. The introduction of these products will revolutionize the financing of small businesses and startups for these key reasons: Entrepreneurs and small business owners, who have had difficulty obtaining capital through traditional means (such as bank loans and angel investors) in recent years, will have access to investors around the world through social media. For the first time, investors (so-called unqualified investors) will be able to purchase an equity stake in a business or new investment vehicle. The Securities and Exchange Commission (SEC) is overseeing the creation of online portals that will allow entrepreneurs and small investors to connect. When these portals go live in 2013, Crowdfund Investing For Dummies will be on the front line to educate business owners, other entrepreneurs, and investors alike. Crowdfund Investing For Dummies will walk entrepreneurs and investors, like yourself, through this new investing experience, beginning with explaining how and why CFI developed and what the 2012 JOBS says about CFI. Entrepreneurs will find out how much funding they can realistically raise through CFI; how to plan and launch a CFI campaign; how to manage the crowd after a campaign is successful; and how to work within the SEC's regulations at every stage. Investors will discover: the benefits and risks of CFI ;how much they can invest; how a CFI investment may fit into a broader investment portfolio; how to provide value to the business or project being funded; and how to bow out of an investment when the time is right. Crowdfund Investing For Dummies is an indispensable resource for long time investors and novice investors alike.
