In June, 2012, Steven Fujita went to the emergency room and was diagnosed with meningitis. After four days of improvement, he was scheduled to be discharged when his condition worsened dramatically. His blood pressure, body temperature and sodium levels became dangerously low. He started to lose consciousness. He was rushed to the Intensive care Unit. He had suffered spinal cord damage at the T4 level. Upon regaining full consciousness, Fujita could not speak, eat, breathe independently, control bodily functions, nor move his legs. In this book, he takes the reader on a journey of recovery from spinal cord injury. It is not only a journey of determination and hard work, but of positive attitude and drawing inspiration, of gratitude towards those around him: his family, his friends, co-workers, and medical professionals.
