the most impulsive decision of her life. Told with suspense and style, sparkling with warmth and humor, Wild powerfully captures the terrors and pleasures of one young woman forging ahead against all odds on a journey that maddened, strengthened, and ultimately healed her. "True survival odysseys of two wilderness adventurers who entered the woods in search of tranquility-- but found something else entirely"--Page 4 of cover.

The book tells the story of Cheryl Strayed and the trials she'd undergone ever since her mother Bobbi was diagnosed with cancer when Cheryl was just 22. In the book, she recalls aspects in her life that had led her to take the Pacific Crest Trail and the various people she'd met along the way. She had received so much kindness throughout the journey and had grown over the past few months on the trip with realizations that were captivating because of the reality they'd stemmed from. Wild From Lost to Found on the Pacific Crest Trail tells such a wonderful story of how she'd overcome terrible parts of her life in order to live her life happily in the present. Sorrow is a heavy theme in the book, but

so is healing, as well as, change. A lot of people go through so much pain in their lives that some find no way out of their personal struggle. Cheryl Strayed had suffered immensely and had made terrible mistakes because of it. But in the end, she has taught her readers that we can't regret what we've done, but rather learn from it and do better when the next time the opportunity arises. **DISCLAIMER:** This is an unofficial summary & analysis and **NOT** the original book.

"Terrifying... Eloquent... A heart-rending drama of human yearning." --New York Times
In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life

for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying

prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the dries and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the

peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality.

Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

In her debut novel, the bestselling author of *Wild* weaves a searing and luminous tale of a family's grief after unexpected loss. "Work hard. Do good. Be incredible!" is the advice Teresa Rae Wood shares with the listeners of her local radio show, *Modern Pioneers*, and the advice she strives to live by every day. She has fled a bad marriage and rebuilt a life with her children, Claire and Joshua, and their caring stepfather, Bruce. Their love for each other binds them as a family through the daily struggles of making ends

meet. But when they received unexpected news that Teresa, only 38, is dying of cancer, their lives all begin to unravel and drift apart. Strayed's intimate portraits of these fully human characters in a time of crisis show the varying truths of grief, forgiveness, and the beautiful terrors of learning how to keep living.

The actor known for roles in such productions as *Parks and Recreation* shares whimsical musings on a range of topics from love and manliness to grooming and eating meat, offering additional discussions of his life before fame and his courtship of his wife, Megan Mullally.

and reclaim the flavor and nutrients we've lost. Ever since farmers first planted seeds 10,000 years ago, humans have been destroying the nutritional value of their fruits and vegetables. Unwittingly, we've been selecting plants that are high in starch and sugar and low in vitamins, minerals, fiber, and antioxidants for more than 400 generations. **EATING ON THE WILD SIDE** reveals the solution--choosing modern varieties that approach the nutritional content of wild plants but that also please the modern palate. Jo Robinson explains that many of these newly identified varieties can be found in supermarkets and farmer's market, and introduces simple, scientifically proven methods of preparation that enhance their flavor and nutrition. Based on years of scientific research and filled with food history and practical advice, **EATING ON THE**
